SUMMARY OF INFORMATION

The target structure is a building of European origin dealing with international affairs (such as UNESCO).

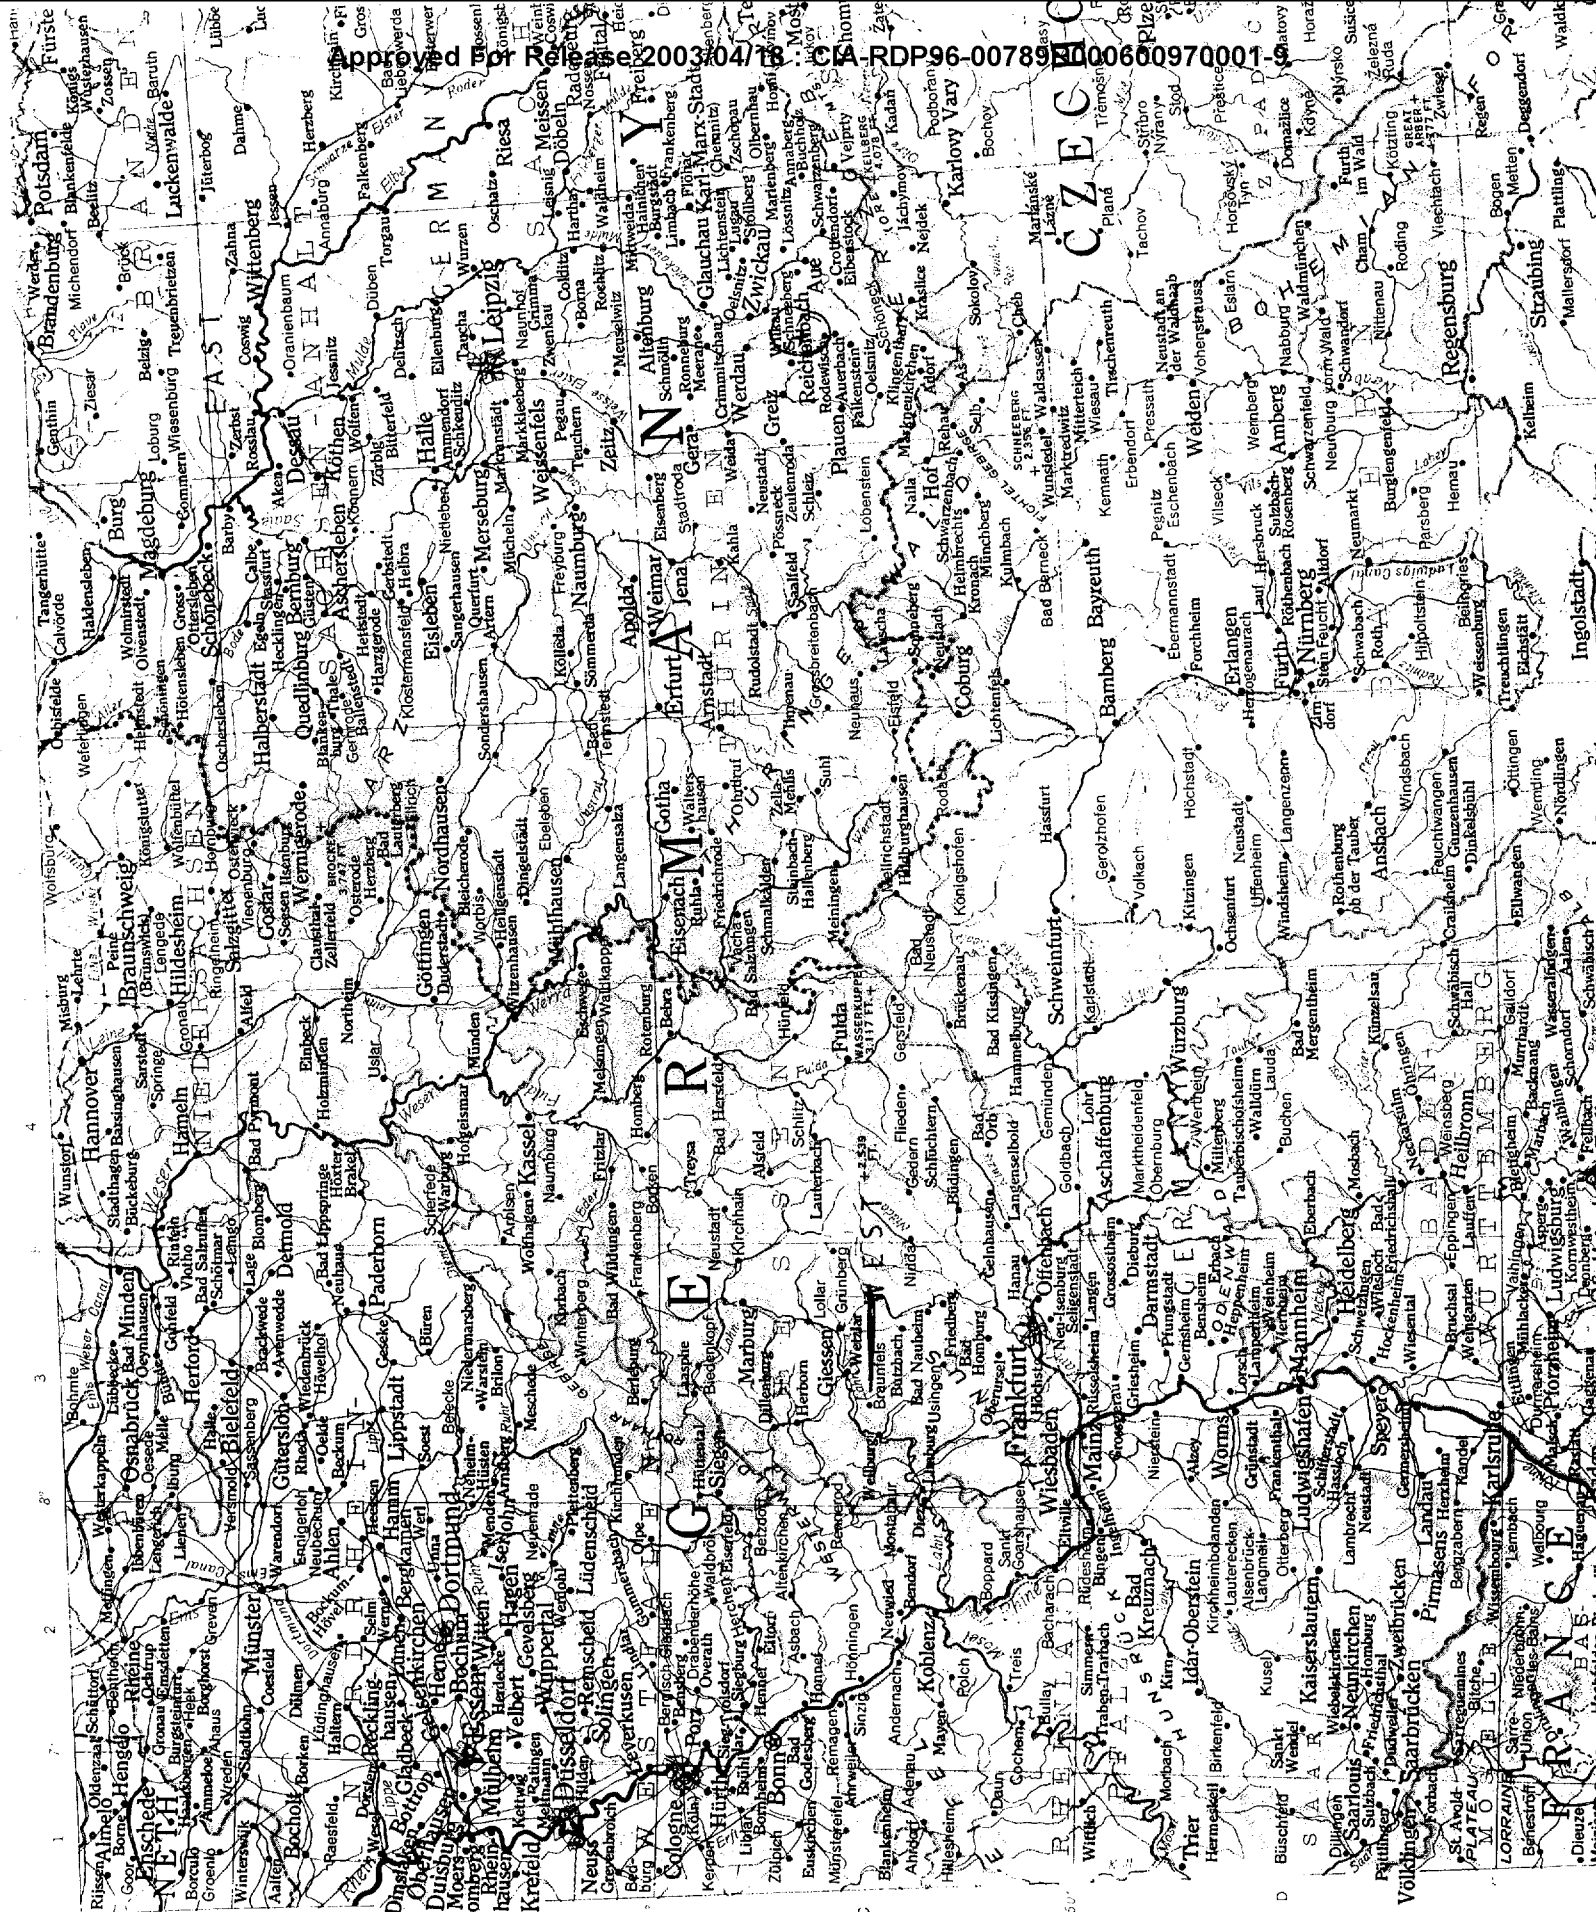

The target building fulfills a key administrative function associated with a diplomatic role or character.

The target building is one of about five (like) buildings located in France, the Federal Republic of Germany, Italy, Spain, and Great Britain, <sup>and</sup> targeted for a terrorist, bombing attack.

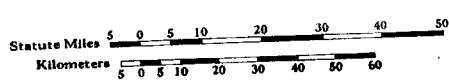

Several terrorist elements from various countries appear to be involved. Members of the Red Brigade from Italy and the Red Army Faction from the FRG appear to provide logistical support. The Spanish Basque ETA (Fatherland and Liberty) as well as the ELA (Greek Revolutionary Power Struggle) also provide some assistance. The perpetrators will probably come from the West German movement known as the Revolutionary Cells (RZ), or the Spanish First of October Anti-Fascist Resistance Group (GRAPO). Either RZ or GRAPO will claim credit for this bomb attack. (NOTE THE NAME "WEITZEL" PHONETICALLY SURFACED WHEN REPORTING ON THE FRG AND MAY BE IDENTIFIABLE WITH "WETZLAR", FRG).
